Parent Feedback – January 2021

A selection of responses, focussing on the strengths of our remote learning provision.

Harvey and myself seem to find the home-schooling quite enjoyable. There are topics he has more interest than others, but all the work gets done. Credit to all teachers as this has been facilitated by Class Dojo (I'm not the best with technology) which I find easy to use but big praise for Miss Bradbury and her team for keeping our learning essential but fun and also checking in on our mental wellbeing too. Thanks

I think the online learning has been brilliant, and the contact with the teachers has also been great, it's a hard time for all, especially the children, thank you all for your support, your all doing amazing :)

Cody has had his struggles but we are getting there, Mrs Hemphill has been a good support when we have queries.

Mr Dorman has been fab, you can see he is trying to make things easier all the time, he started with voice overs on the power point and has now done some videos of him talking which really helped Lacey.

Support from school and class teacher has been spot on. Really helpful and clear, concise instructions about how to further learning.

I honestly feel that staff are doing an excellent job under the difficult circumstances.

Everything seems to be working really well thank you.

The school is doing everything it can to support their students. These are times that no one wishes to repeat, once it is all over. Fordbridge is working to ensure the transition back to school will have limited impact. Thank you

We are very happy with everything, Ariana finds the work fine, sometimes she struggles to focus on tasks she isn't as interested in but she always gets through it all. Thank you for all your hard work and support.

I am happy with all the hard work the teachers have done to provide support and work, you all have done an amazing job and we really appreciate your help through this tough time.

We had some amazing advice from Miss Walton over the phone at the end of last week. We love the combination of formal lessons & then more fun challenges like on Twitter. We cannot thank the Reception Teachers enough in terms of the support we've received.

Blake really enjoys seeing his friends on the weekly quiz.

I'd just like to thank everybody at school for adapting to home learning as well as us parents have had to.

The remote learning has worked well for Daisie she seems to be enjoying and completes all work set if she's struggling I know I can talk to her teachers for support :)

Thank you for all your support

Thank you all your amazing

I will say that the teachers at Fordbridge have been unbelievably helpful whenever I have needed them."

Miss Binning and Mrs page (sunflowers) are always available whenever I have needed them. They have been doing a fantastic job in very difficult circumstances.

Noah is enjoying the zoom catch ups very much

Really impressed and grateful for how the school are doing home learning, just the right amount of work I feel and the support of my child's teachers has been great, always there to answer questions and concerns. Also appreciate how flexible it is e.g. being able to do tasks set in our own time as it makes fitting school work around my own work a lot less stressful.

I feel the remote home learning online you are providing is excellent. Although William is in school, when his bubble closed we found remote learning really good but just struggled on the days when his younger sister was at home. All staff are doing an amazing job!
