What we enjoyed about remote learning – in pupils' own words

Feeling the connection to our teachers and school:
'I liked being able to listen to my teachers that I missed'
'My favourite part was the voice overs because it was like we were at school'
'I liked the voice over because it made me feel like my teacher was with me.'
'I liked writing and doing the work because it made me feel like I was at school.'

Being able to work at our own pace:
'I had more time to do it'
'I was able to go at my own pace'
'I loved that I was allowed to submit it whenever I want'
'You don't need to be rushed'
'You had your own time to do your own work'
'Working at my own pace'

Taking ownership of our learning:
'Taking your time with research and finding new things'
'I was in control of the learning'
'Voice overs were better because you can listen back'
'I could get a snack whenever I wanted'
'My favourite thing was going back over the thing you got stuck on'
'Being able to replay the voice over if I miss something'
'I could take my time with the work and take lots of breaks'

And of course, making fantastic progress in our learning:
'I got smarter while I was at home'
'I am most proud of my abstract lesson because I didn't understand it at first but I managed to get it done.'
'My favourite piece of work was the coronavirus one because I got my feelings out'
'I really liked music, PE and art'
'In maths, I found one of them hard and I eventually did it'
