GEOGRAPHY

Home Learning Project

Geography is the study of places and the relationships between people and their environments. Can you remember the 7 continents and the 5 oceans? You can use the links on our 'video resource centre' page to help you remember them. If you are in years 2-6 and fancy a challenge, have a go at the geography quiz! Can you beat your score?

Your geography project is to create a globe/map of your choice. You can be as creative as you would like. Have a go at labelling key features. E.g. oceans, continents, countries, capital cities, the equator.
