

Fordbridge Community Primary School

WINTER ACCESS PROCEDURES

In the event of adverse weather affecting access to School all Parents / Carers will receive a message via ParentMail from School to advise that our Winter Procedures are operating.

For Health & Safety reasons we may need to restrict access to certain parts of the site, including paths and playgrounds

In the event of a need to implement our Winter Access Procedures, then the only access to school will be via the Main Entrance located off Crabtree Drive, marked **E** above. Entry to the school building will then be as follows:

- **Fordbridge Childcare Plus** – enter via their usual Entrance marked **1** above.
- **Nursery** – enter via their usual Nursery Entrance marked **2**, if the path or gates are closed, please enter via the Main School Entrance marked **3** above.
- **Reception to Year 6** - enter via Main School Entrance marked **3** above.

Please take care at all times as although paths may be cleared and gritted, they may still not be safe underfoot and so we ask everyone to be cautious, approach with care and not to deviate from the cleared paths.

If gates or paths are closed, then please do not attempt to use them and do follow any directions and signs on site. We trust that we can count on your cooperation and hope that you will appreciate the need to try to ensure that everyone remains safe in times of poor weather.
