

Dear Parents

HEAD LICE IN YOUR CHILD'S GROUP!

Do please be extra vigilant when checking your child's hair and treat him/her if necessary as, unfortunately, one or two cases of head lice have been reported by parents with children in your child's group. Please check your child on a regular basis.

If you do find head lice present, please check all members of your family to ensure that we eradicate this problem.

If your child has long hair, please ensure that it is plaited or tied into a ponytail or bunches as this helps to stop the transfer of head lice.

Thank you.

Yours sincerely

A Heaven
Acting Manager
